Applied Vision Grows Global Customer Sales and Service Network with Two New UK Locations

AKRON, OH – February 16, 2011 – Applied Vision Corporation, the leading provider of machine vision inspection systems for the container manufacturing industry, has opened two new offices in the UK to provide local customers with superior sales, service and support.

- **Applied Vision Europe Limited**, located in London, provides sales and product support. Contact Chris Stanley by phone at +44 79 2001 1154, or email chris.stanley@appliedvision.com for more information.
- **Applied Vision Services Europe Limited**, located in Liverpool, specializes in customer service. This includes onsite service, remote monitoring and diagnostics. Preventative maintenance programs are also available. Contact Swav Nijak by phone at +44 79 4056 6027 or email swav.nijak@appliedvision.com.

Alternatively, customers can still call the Applied Vision service hotline at 866.348.2383. This all-inclusive service department is available 24-hours a day, 365-days a year.

This announcement is relevant to all food and beverage can manufacturers who require application-specific inspection and process monitoring systems. Applied Vision automated vision technology achieves optimum operational efficiency and routinely exceeds customers' exacting criteria for speed, accuracy and consistency. Some of the many applications in which Applied Vision vision systems are utilized include glass and metal container, cap and closure, mixed label and color decoration inspection.

With nearly 20 global locations (now including the UK), Applied Vision continues to reaffirm its promise of exceptional customer support at the local level. In recent months, the company also opened new offices in Dubai, UAE and Denver, CO. While strengthening its global presence, Applied Vision has made notable strides in other areas, including advancements in camera-based colorimetric technology, foil membrane end inspection and automated slip sheet inspection.

Visit www.appliedvision.com to learn why Applied Vision has been a pioneering and innovative developer of machine vision systems for the food and beverage industry for more than three decades.

About Applied Vision Corporation

Applied Vision Corporation designs and manufactures application-specific machine vision inspection systems for packaging, food and beverage containers and color printing. Applied Vision systems are sold worldwide through original equipment manufacturers (OEMs), value-added resellers (VARs), full-service distributors and company direct.
